Swine Flu Policy

As an Ofsted Registered Nursery School, we come into contact with lots of children. It is therefore important that we follow good hygiene practice to protect ourselves and others from any infections particularly Swine Flu.

We ensure that we:

- Have tissues available in all classrooms.
- Use clean tissues to cover our mouth and nose when we cough and sneeze.
- Bin the tissues after one use.
- Wash our hands with soap and hot water regularly.

We reinforce good hygiene practice with all the children in our care. We include activities to promote good hygiene in line with the Early Years Foundation Stage Curriculum.

As in our normal practice please do keep us informed if your child is at all unwell. If you are concerned that your child may have Swine Flu or has been in contact with someone who has or is suspected of having it, please consult with your doctor and discuss with us before bringing your child to Nursery. Please do not return your child to our care following any illness until they are fully recovered. We will keep all parents informed regarding the health of the children in our care.

We will follow the Governments Guidance.
